

## JOB OPPORTUNITIES AT THE CROLLY DISTILLERY AND VISITOR'S CENTRE

### Job Title: Master Distiller

The CrollY Distillery and Visitor's Centre is seeking a suitably qualified distiller as we expand into the production of Irish whiskey. Our new 50,000 LPA distillery is due to open by year end 2019 so the post is available with immediate effect.

Initially working on equipment installation with our Process Engineers, this position is focused solely on the production of Irish whiskey both malt and pot still. We are seeking a dynamic, enthusiastic, energetic person with all relevant experience.

It is critical that applicant(s) have all of the appropriate qualifications and is fully expert in all aspects of the brewing and distilling process, stock control, quality assurance and health and safety issues.

#### **JOB DESCRIPTION**

This is a senior position that involves a wide-range of responsibilities including brewing, distilling, quality control and product testing.

You will also be required to interact with trade, members of the public both in the facility and at trade shows.

#### **RESPONSIBILITIES OF THE DISTILLER**

- Manage day-to-day operations of whiskey production.
- Scheduling and production including help with the sourcing of raw materials, malting, fermentation and distillation.
- Designing a comprehensive sampling and recording programme.
- Each phase of the distillation process must be logged, and detailed records should be kept to ensure and maintain revenue compliance.
- Engage with brand promotion.
- As requested by management, the Distiller will engage with customers/tour participants, the media, other distilleries and wholesalers to promote the distillery and its products.
- Maintain hygiene and safety standards.
